

Demonstrating commitment
to continual improvement
through ICT

Becta leading
next generation
learning

This is to certify that:

William Brookes School

has been recognised as progressing towards
Next Generation Learning for all their learners

We will ensure that our learners have access to develop their skills and make use of technology safely. We aspire to be an effective and efficient school with technology competent staff and learners. We will progress towards recognition and accreditation as a continuing commitment to improving ICT throughout the school.

By making this commitment to Next Generation Learning over the next three years, we will:

- develop a shared vision for the use of technology
- plan the use of ICT across the curriculum
- use technology to enhance learning and support
- assess how technology is supporting our pupils' learning
- ensure all staff and learners can use technology effectively and safely
- use technology to extend learning beyond the school
- make sure we have safe, secure and sustainable resources
- use technology to help learners progress and achieve.

October 2009

Stephen Crowne
Chief Executive, Becta

Head Teacher
William Brookes School
